

DRAINVAC
drainvac.com

THE most robust,
sophisticated and
adjustable reel system
on the market.

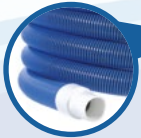

Drainvac Tooling

REEL 01XP

This high-end commercial accessory connects to your existing central vacuum system. The mechanism has a self-locking ratchet which locks the hose into place. After usage, the reel easily rewinds and keeps the hose from lying around. Making your workspace safe at all times.

REELO1XP

The hose included with the reel is 35 feet long and can be unrolled up to 30 feet.

Fits with both sizes : 1-1/4" and 1-1/2" diameter hose.

The REELO1XP can swivel from left to right or it can be locked at an exact angle according to your daily need.

This product can be wall mounted or ceiling mounted.

The REELO1XP is larger and has a bigger radius compared to other existing brands, to maximize the airflow & suction speed, and minimize the obstructions.

Closed
Position

This is a must for shops, industries or even for handymen who uses quite often the central vacuum system. It saves a lot of time and money, in addition to avoid clutter of a regular hose. The workspace floor remains free at any time!
